

Credit Information Sheet for Discover Abroad Course Registration Form

Non-UGA students: your college or university will individually determine how these courses are transferred back, so please consult a transfer advisor at your school prior to making your selection.

Your course selections WILL NOT affect the coursework requirements for the program (beyond additional requirements for graduate and honors students); they simply designate how the study abroad program appears on your UGA transcript. This means each student will be learning the same material on the program.

- Please find your program in the list below and type your course selections into the corresponding fields on your course registration form on your program application on <http://studyaway.uga.edu>
- Students wishing to receive honors credit for the courses on these programs should register for the graduate versions of these courses. Note that there are no graduate versions for certain courses (noted N/A).
- You will receive CRN numbers via email for courses to register for based on your course selection. You must use the CRN numbers provided to you in the email to register for Discover Abroad courses in Athena, and you will not be able to register without them.

Winter Break Australia (6 credits)

Undergrad	Graduate
Optional to student: FANR 4271W (3-credits)	Optional to student: FANR 6271W (3-credits)
FANR 4217 (3 or 6 credits)	FANR 6271 (3 or 6 Credits)
